Answer Key

Episode 115 – Going and Growing Organic

1. Minnesota
2. \$30 billion dollar
3. Organic
4. a decade (ten years)
5. Organic Valley
6. health food stores
conventional grocery stores
7. Weeds, diseases and not being able to use fertilizers are the farming challenges, but organic growers also face federal guidelines, paperwork, the state ag board, and inspectors. And it takes three years to become organic.
