

Episode 206 – Reap the Wild Wind

1. Extra energy provided by the wind machines can help pay off land payments, or create extra money.
2. 2 Percent.
3. When a family or farm sells energy back to the energy company; this would happen when the farm generates more energy than it uses.
4. Showing big and small wind machines for farmers to help them save money on their own energy bills and to make money for their farm.
5. The early designs:
 - Were inefficient; they broke down and wore out
 - Harmed wildlife, like raptors and other birds
